

## EFC Flight Operations & Scheduling of Aircraft

### Scheduling of Aircraft: (Must use Schedulmaster and limited up to 90 Days advanced Scheduling)

1. MUST have greater than 3 hours (ie. 3.1) PIC flight time in last 90 days.
2. MUST schedule an aircraft before you fly it.
3. NO aircraft more than 12 consecutive days, including a weekend.
4. With EFC (Pres., Dir. Of Ops or Board) approval, may schedule 9 consecutive days, including two (2) weekends.
5. No more than five (5) aircraft schedules at one time which total more than 16 days, unless specifically approved (prior to scheduling) by EFC Board of Directors (BoD).
6. Member will be charged for a minimum of one flight hour per day the aircraft is kept.
7. An aircraft left unattended by its user longer than one (1) hour after its start use time may have its schedule cancelled and then rescheduled for use by another member. See the EFC Operations Manual for further information.
8. A Club member may request from the Board a waiver to the 90-day scheduling rule. The waiver is allowed ONLY once (1) during a 12-month period. See the EFC Operations Manual for further guidance and application procedures.

### Flight Operations:

#### New Members:

1. Must receive check ride by EFC Instructor Pilot (may be a day and/or night check ride)
2. MUST receive a night checkout prior to any night operations in club aircraft. For night check out, see below (Night & Cross Country Check out).
3. For C-182 check out, must have 20 hours (**after** receiving Private License) fixed-pitch time, and a check ride in C-182 with high-performance (HP) sign off by EFC IP. With prior C-182 time and HP sign off, all is needed (the 20 hrs. is waived) is EFC checkout in C-182 by Club IP.

#### Student Pilots (Non-Certificated Pilots):

1. Can NOT be released for SOLO unless signed off by EFC (club or designated) Instructor IAW FARs.
2. Maximum cross wind is 10 kts.
3. NO PIC (ie., SOLO) during night time.
4. SOLO touch & go's or stop & go's can be performed at the discretion of his/her club Instructor.

#### ALL (Pilot) Members:

1. MUST have annual proficiency ("Birthday") check ride NLT end of birthday month, or during the preceding month.
2. NO NON-club member may act as PIC in an EFC aircraft.
3. MUST meet EFC night flight cross-country requirements (a check ride) PRIOR to night operations in any EFC aircraft.
4. MUST have logged more than 3 hours (ie., 3.1) PIC flight time in any aircraft in last 90 days PRIOR to any scheduling of and flight (as PIC) in an EFC aircraft.
5. Must get separate INITIAL check outs in C-172 and C-182. Then birthday checks in C-182 will suffice for both aircraft. Check ride in C-172 will NOT suffice for C-182.

#### Night & Cross-Country Operations:

PRIOR to ANY night operations in a club aircraft as PIC in a club aircraft, the club member:

- a. MUST be current IAW FARs - 3 takeoffs/landings in last 90 days, **AND**
- b. MUST log 3 hours night cross-country instruction (and be signed off) with an EFC CFII.

**OR:**

- c. Has an Instrument rating, **AND**
- d. Certified (night check ride) for night flight by an EFC CFII.
